

OUR APPROACH TO UK TAX

YEAR ENDING 31 DECEMBER 2017

PUBLICATION DATE: 07 DECEMBER 2017

Corporate Profile

Allscripts (NASDAQ: MDRX) is a leader in healthcare information technology solutions that advance clinical, financial and operational results. Our innovative solutions connect people, places and data across an Open, Connected Community of Health™. Connectivity empowers caregivers to make better decisions and deliver better care for healthier populations.

Allscripts is one of the largest public companies focused exclusively on healthcare information technology globally. Allscripts offers healthcare providers, payers and life sciences companies globally a complete portfolio of clinical, financial, population health management, transaction and managed IT services and other solutions. As of December 31, 2016, we had approximately 7,600 employees worldwide. For 2016, revenue was \$1.6 billion. We operate in multiple countries including the United States, Australia, Canada, India, Israel, and the United Kingdom.

Our industry leading client base consists of 180,000 physicians across approximately 45,000 ambulatory facilities, 2,500 hospitals and 17,000 post-acute organizations.

Our approach to tax seeks to support this vision and also balance the interests of our various stakeholders including customers, suppliers, shareholders, governments and employees.

Scope of our UK Tax Strategy

Allscripts pays a range of UK taxes including corporate income taxes, stamp duties, withholding taxes, employment and other taxes. We also collect and pay employee taxes as well as indirect taxes such as VAT and excise duties.

For the purposes of our tax strategy, tax is defined as all forms of direct or indirect tax charges or levies including corporate income tax, VAT, payroll taxes, excise and import duties, stamp duties, and withholding taxes.

Our tax strategy applies to all >50% owned entities within the Allscripts UK group as well as all employees whose actions or responsibilities have an impact on the management of tax.

Tax Governance, Risk Management and Compliance

The Chief Financial Officer is responsible for the Group's tax strategy. The Chief Financial Officer delegates the implementation of the Group's tax strategy to the Corporate Controller and Tax Director and delivery of the strategy is supported by the group tax team and finance teams. The tax strategy is reviewed on a regular basis and any changes are approved by the Chief Financial Officer.

In addition, the Allscripts tax status is regularly reported as required to the Audit Committee and the Audit Committee is responsible for monitoring any significant tax matters. Audit Committee meetings are attended by the Chief Financial Officer.

Our overall risk management framework requires that we have in place the right procedures, processes and frameworks to minimise risks from impacting our business, or to enable us to respond promptly and decisively when they do. This gives us confidence in our ability to achieve our strategic objectives and support the long-term sustainable growth of our business. A description of our risk management framework can be found in our latest Annual Report ("Risk Management").

We are committed to complying with tax law and practice in all the territories in which we operate. As such, our tax risk management policy requires operations within the Allscripts UK group to establish appropriate tax compliance procedures.

Business tax processes are subject to robust internal controls and external audit procedures. Transactions between Allscripts group companies are conducted on an arm's length basis and in accordance with current OECD guidelines. Processes are documented and reviewed annually.

As part of our financial reporting cycle, the group tax team assesses any tax risks arising including those reported by the operations. Material risks are notified to the Audit Committee.

Tax Planning and Appetite for Risk

We will only engage in tax planning that directly supports our commercial activities. Thus any tax planning undertaken will have commercial and economic substance and will have regard to the Group's wider vision and strategy. We will seek to minimise uncertainty, risk or disputes and we will engage external advisors as appropriate to achieve this. As such our appetite for risk is low in this regard.

We do aim to make use of those tax incentives and exemptions intentionally provided in law, for example capital allowances and credits associated with research and development expenditure.

Relationship with Tax Authorities

We engage with HM Revenue and Customs ("HMRC"), with honesty, integrity and transparency in respect of all tax matters. We will work collaboratively with HMRC wherever possible to resolve disputes or where there is uncertainty in the interpretation of tax laws.

Allscripts Healthcare Solutions Inc. considers that the publication of this statement complies with the duty set out in Schedule 19 UK Finance Act 2016. This document will be reviewed and refreshed annually.
